Dear The Federal Communications Commission,

I recently had to get a wireless phone because all of the fees and taxes placed on my land line (including fees and taxes placed on the line by you) put the monthly phone bill out of reach. Now, you want to start piling on the taxes to my new phone. I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

All your Universal Service Fund seems to do is take more money out of my pocket with no benefit to me.

Sincerely,
